

## DHA Algal Oil – GMO Status

DHA Algal Oil is derived from a conventional microalgae culture which is not genetically modified and the oil itself does not meet requirements which subject it to being labeled as GMO. The use of the term “non-GMO” for labeling purposes is subject to local regulatory requirements. Please consult with appropriate counsel regarding your potential use of the term “non-GMO”.

If you have any questions concerning GMO status, please do not hesitate to contact us.

Regards,

Quality Assurance
